

Mark your calendars for the inaugural Rogue River – World Fish Migration Day Festival and 5K Migratory Run!

Saturday, April 7, 2018

North Middle School Grounds & Gilbert Creek, Grants Pass

It's high time that Josephine County had an event that celebrated all things watershed-related! What better way to do that than with a fun-filled, activity-based educational festival and 5K race/river-related costume fun run?

World Fish Migration Day was created to build worldwide awareness of the importance of freshwater migratory fish and open rivers. And you all know how important migratory fish and open rivers and streams are to southwestern Oregon! So let's celebrate them here, locally!

We're hoping that you can join us as an exhibitor for this event, and also spread the word to others who may be interested in attending as an exhibitor, sponsor, volunteer, or participant. Our theme is **CONNECTING FISH, RIVERS AND PEOPLE**. We want to have as many educational and entertaining hands-on activities as possible for youth and adults; and we also want to provide a forum for you to promote the great things you do to further education, restoration, and stewardship of the greater Rogue River watershed, its fish and wildlife.

Rogue River Watershed Council is presenting this event in collaboration with Grants Pass School District 7.

More information will be forthcoming, but please, **SAVE THE DATE**, as we'd love to have you join in on the fun!

An online exhibitor application will be available online by mid-January, with a February 28 submission deadline.

If you have any questions or would like to share the contact information of an organization that you think should be invited, please let me hear from you! Also, my apologies if you're not the best contact at your organization for this event; please forward this message to whomever that might be!
